Progress on Improving PulseNet Web Conferencing

- ✓ During 2004 Update meeting participants expressed need for more flexible Web conference
- ✓ WebBoard is a COTS provided by CDC.
 - Limited customization
- ✓ CDC is migrating to a different commercial product called SiteScape
 - Increased capabilities for customization

Progress on Improving Web Conferencing

- ✓ PulseNet one of pilot projects for the transition
- ✓ Fall 2004 PulseNet participants stakeholders group input on features they wanted WebBoard replacement to incorporate
- ✓ SiteScape design team implementing many of these requests
- ✓ The SiteScape Implementation at CDC called CDC Team

Workspaces in SiteScape

- ✓ CDC Team Workspace contains
 - ✓ Program solutions Workspace
 - ✓ PulseNet Workspace

Welcome to CDC Team!

The screen below shows **Workspaces** on the left. Workspaces may contain forums, calendars and other workspaces. When a workspace on the left is selected, as indicated by a green arrow, the workspaces, forums and calendars it contains are displayed on the right under the **Current Workspace** heading. Workspaces are organized as follows:

- **Collaboration Projects**, for short-term projects and fast, *ad hoc* collaborating and document coauthoring and review. Here you can use a wizard to create a workspace and invite collaborators
- **Program Solutions**, for workspaces that support a range of business processes for enduring organizations
- **Training and Support**, for examples of workspaces, online training, user guides, support forum, and a practice area

Thanks, and Happy Collaborating!

Welcome to the CDC Team Program Solutions area!

Here you will find Workspaces that support a range of business processes for enduring organizations. In contrast to the ad hoc, project-oriented, collaboration spaces in [Collaboration Projects](#), these are long-term solutions providing process support tools for ongoing programs, organizations and communities of practice. You will not be shown Workspaces to which you have not been granted access rights. Use the [CDC Team Catalog](#) to find out about these Workspaces. Contact the [CDC Team Librarian](#) to find out how to design a Program Workspace for your group. NOTE: Please review the Rules of Behavior and the Discussion Guidelines within the [Policies and Procedures Forum](#).

Thanks, and Happy Collaborating!
