The annual APHL All-Hazards Laboratory Preparedness Survey assesses public health preparedness the capacity and capability of public health laboratories (PHLs) to respond to biological, chemical, radiological and other threats.

The survey was distributed to PHLs in all 50 states, Puerto Rico, the District of Columbia, Los Angeles and New York City. It yielded a 98% response rate (53/54).

Of the labs that responded:

- **98%** employ a BIOSAFETY professional
- **154** functional & tabletop DRILLS
- **221** full-scale EXERCISES
- **40** full-scale EXERCISES
- **32%** increased their LRN-C capabilities
- **$87.8 MILLION** PHEP funds for BIOLOGICAL & CHEMICAL preparedness
- **250K** SAMPLES TESTED against biological, chemical & radiological THREAT AGENTS and more
- **250K** SAMPLES

Altogether, they CONDUCTED
