

TAKE ADVANTAGE OF YOUR LABORATORY'S APHL MEMBERSHIP!

Your laboratory is a member of the Association of Public Health Laboratories (APHL), and that means you can take advantage of the numerous resources we have available and tap into a vast network of other laboratory scientists around the country—all at no cost to you!

Scan the QR codes below to learn more or visit www.APHL.org!

Create
an account at
APHL.org!

It's free and can make it
easier to get involved and
access resources.

Laboratory Trainings

Keep Up-to-date

Use APHL's searchable catalog of online courses and webinars to find professional development opportunities relevant to your work. Topics include CLIA, packaging and shipping, genetics, emergency preparedness, mycology, newborn screening and more. Many courses provide P.A.C.E.® continuing education credits!

collaborate.aphl.org

CoLABorate

Join the Discussion

Join topical communities on APHL's peer-to-peer discussion forum to connect with other community members, ask questions and share resources. Explore the communities available and contact a community's APHL staff liaison to join.

eUpdate@aphl.org

eUpdate Newsletter

Stay in the Loop

APHL's weekly e-newsletter provides timely public health laboratory-related announcements and resources, such as funding opportunities, new publications and tools, and upcoming events and trainings.

All staff at APHL member laboratories can receive eUpdate; email eUpdate@aphl.org to subscribe.

Tools & Resources

Don't Reinvent the Wheel

APHL has an extensive array of publications, tools and resources that you and your team can use to inform and optimize your work, achieve accreditation, conform to CLIA requirements, prepare for renovations and more.

What's APHL? We're a membership association for state, local and territorial public health laboratories in the US, including environmental, agricultural and food safety laboratories. Our mission is to shape national and global health outcomes by promoting the value and contributions of public health laboratories and continuously improving the public health laboratory system and practice. Visit us online to find out more about how APHL can support you!
