WEBINAR

InFORM 2020
Moving Forward Together

Cluster Detection and Reporting I
Monday, August 10th, 2020 | 3:00 — 4:30 pm ET
Moderator: Kelley Hise (CDC)

DESCRIPTION
This webinar will review how WGS is used to detect national clusters by cgMLST and wgMLST for Salmonella, Shigella, Campylobacter, Escherichia and Listeria. Additionally, this program will provide perspectives from a state public health laboratory on how WGS clusters are detected and reported at the local level.

OBJECTIVES
At the conclusion of the program, the participant will be able to:
- Discuss how local cluster detection is applied for different foodborne pathogens by WGS.
- Describe a locally developed and standardized system for tracking cluster and outbreaks.

Presentations by:
- Jasmine Huffman, CDC
- Francis Tannor, Virginia’s Division of Consolidated Laboratory Services

AUDIENCE
This webinar is intended for laboratorians and epidemiologists who use cgMLST or wgMLST to detect national clusters of Salmonella, Shigella, Campylobacter, Escherichia and Listeria.

CONTINUING EDUCATION
The Association of Public Health Laboratories (APHL) is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar will provide 1.5 contact hour for participants who successfully complete this training.
