- New York births/year: ~250,000
- New Jersey births/year: ~101,000
- Both states use Neometrics
- Both states have secondary site to receive samples
Scenario

• Laboratory can not perform testing: power outage, flood, fire damage, etc.

Wounded state:
  – Adequate staff is available
  – Secondary site available to receive accession and ship samples

• Follow-up performed by wounded state
Wounded State Tasks

1. Samples received/categorized/accessioned
2. Staff enter demographic data
3. Samples sent to back-up lab
4. Provide excel spreadsheet with data required to process samples to back up lab:

<table>
<thead>

</table>

Data export/import routine provided by Neometrics
Backup Lab Tasks

1. Receive samples
2. Compare samples received to Excel spreadsheet
3. Accession samples
4. Complete spreadsheet
5. Import NJ demo data into NY database
6. Analyze samples
7. Call out referrals
8. Provide Excel report with results summary*

*Provided by Neometrics
