THE GLOBAL HEALTH SECURITY AGENDA (GHSA)

AMBASSADOR BONNIE JENKINS
COORDINATOR, THREAT REDUCTION PROGRAMS

JUNE 6, 2016
WHY IS GLOBAL HEALTH SECURITY AN IMPORTANT ISSUE?

- Emergence and spread of new microbes
- Majority of countries are not fulfilling their IHR requirements
- Weak health systems in the vast majority of countries
- Globalization of travel and trade
- Infectious disease is a permanent phenomenon
- Causes loss of life, interrupts transportation, extremely expensive to address
- Rise in anti-microbial drug resistance
- A global problem from every angle and requires a global focus effort that spans all parts of the government…every sector
- Different departments/ministries, one health, nongovernmental sector
THE VISION OF THE GHSA

“TO ATTAIN A WORLD SAFE AND SECURE FROM GLOBAL HEALTH THREATS POSED BY INFECTIOUS DISEASES”

• INFECTION DISEASE EPIDEMICS POSE NOT ONLY A LOCAL HEALTH THREAT BUT ALSO AN INTERNATIONAL HEALTH SECURITY THREAT

• NATIONAL MULTISECTORAL COOPERATION AND PREPAREDNESS ARE AT THE CORE OF EFFECTIVE CONTROL OF INFECTIOUS DISEASES THROUGH STRENGTHENED HEALTH SYSTEMS AND PREPAREDNESS

• OPERATIONALIZATION OF “ONE HEALTH” CONCEPT AT NATIONAL AND INTERNATIONAL LEVELS
BENEFITS FROM STRENGTHENING GLOBAL HEALTH SECURITY

• PROTECT POOREST COUNTRIES AND MOST NEGLECTED POPULATIONS; HEALTH AND ECONOMIC BENEFITS

• STRENGTHEN COUNTRY CAPACITY TO FOCUS AND IMPLEMENT HEALTH PROGRAMS MORE EFFECTIVELY

• CREATE SUSTAINABLE SYSTEMS TO INCREASE VACCINATION COVERAGE AND ADDRESS ANTIMICROBIAL RESISTANCE

• STRENGTHEN COUNTRY ORGANIZATIONS’ CAPACITY AND RESILIENCE TO ADDRESS ANY HEALTH THREAT

• STRENGTHEN ALL SEGMENTS OF SOCIETY BY TAKING A HOLISTIC APPROACH TO HEALTH AND SECURITY

GHSA Assistance Efforts
When the GHSA was launched, the United States made a commitment to partner with at least 30 countries over five years to achieve the GHSA targets. In July 2015, the U.S. Government announced its intent to invest more than $1 billion in resources to expand the GHSA to prevent, detect, and respond to future infectious disease outbreaks in 17 countries. Today, we are announcing an additional 13 countries, with which the United States will partner to achieve the targets of the GHSA.

30 countries:
Bangladesh, Burkina Faso, Cambodia, Cameroon, Cote d’Ivoire, Democratic Republic of Congo, Ethiopia, Georgia, Ghana, Guinea, Haiti, India, Indonesia, Jordan, Kazakhstan, Kenya, Laos, Liberia, Mali, Mozambique, Pakistan, Peru, Rwanda, Senegal, Sierra Leone, Tanzania, Thailand, Uganda, Ukraine, and Vietnam.

In addition, we plan to partner with the Caribbean Community (CARICOM) to strengthen regional capacity.

*Malaysia has since become the 31st country
