

# What's New in the Antibiotics Arena?

## An APHL Training Webinar

December 1, 2015 • 1:00 – 2:00 PM ET  
Registration Deadline: November 29, 2015

### DESCRIPTION

In spite of the dire warnings we have heard, new antibiotics are in the development pipeline. Novel drugs or drug combinations to counteract infections caused by multidrug-resistant Gram-negative and Gram-positive bacteria are being investigated by both small and large companies, and may provide us with new chemical classes and previously unexploited mechanisms of action.

### OBJECTIVES

At the conclusion of the program, the participant will be able to:

- Describe a set of new antibacterial agents with novel mechanisms that are currently under clinical development.
- Differentiate the new agents with respect to spectrum of activity, antibacterial targets, and resistance mechanisms.

### FACULTY

**Karen Bush, PhD**, Professor of Practice, Indiana University, Bloomington, IN

### AUDIENCE

This intermediate-level program is appropriate for laboratory professionals working in clinical and academic settings.

### CONTINUING EDUCATION

The Association of Public Health Laboratories (APHL) is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program. Participants who successfully complete each program will be awarded 1.0 contact hours. P.A.C.E.® is accepted by all licensure states except Florida. APHL is a Florida and CPH-recertification approved CE provider; each course has been approved for 1.0 contact hours.
